PARS TECHNOGY

Technology Delivers More Fleet Transport Value

PARS technology leads the fleet vehicle transport field, delivering the most advanced data and operational management tools.

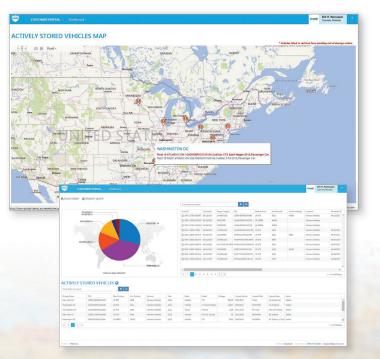

Pars Technology Benefits Include:

- A cutting-edge customer portal with 24/7 availability of pricing, order placement, storage inventory maps, and real-time order status updated by PARS drivers
- The first (and still the best) driver app, featuring real-time condition reports with photos for over 90% of vehicle relocation orders
- Self-service reports, automated "push" reporting, and analytics around moves, timing, and customer satisfaction
- Open safety recall checks on every vehicle we move
- Advanced project management, tracking, and reporting

PARS technology reinforces our logistics experts' recommendations and our drivers' effectiveness. It gives our valued customers – fleet managers and fleet management company representatives alike – the most cost-effective solution to move, store, repair, clean, or license cars, light-duty trucks or commercial vehicles.

PARS CUSTOMER PORTAL

- Quotes and Orders easily created
- Flexible searching by Order Number, VIN, Fleet/Unit#
- Address and VIN verifications
- Dashboard summarizing order and vehicle status
- Real-time updates with photos from PARS driver app
- Full history of orders, contacts, and vehicles
- Easy-to-interpret status indicator for each order
- Picture and contact info for assigned PARS specialist
- Tools to manage and report on large scale projects

MAPPING & ANALYTICS FROM PARS CUSTOMER PORTAL

PARS MOBILE APP

- Vital connection to PARS drivers >90% of orders completed by app
- Real-time updates to orders available through the PARS
 customer portal
- Real-time detailed electronic condition reports including photos and pickup/delivery signatures
- Optimized order accuracy through innovative tools such as VIN scanning to verify correct vehicle
- Confirmation of services completion

REPORTING

- PARS offers three different reporting options:
- Self-service reports on PARS Customer Portal
- Automated "push" reporting
- Pending/Recently Delivered Orders
- Stored Vehicles

-

· Custom reporting/reviews using Microsoft Power BI

THROUGH PARS MOBILE APP DRIVER PROVIDES REAL-TIME UPDATES

SELF-SERVICE & AUTOMATED "PUSH" REPORTING

PARS PROVIDES INDUSTRY-LEADING SERVICES AND TECHNOLOGY.

Count the Ways...

Since 1998, PARS, or Professional Automotive Relocation Services, has become the leader in full-service vehicle relocation, transport and logistics. In that time, the company has grown to become a leading provider of fleet transport services. Consistent investment in advanced technology, hiring only the best talent, and introducing innovative solutions have been the hallmarks of PARS.

Today, customers' expectations for the relocation or transport of fleet vehicles are higher than ever. Their needs much more complex. Their objectives support their business' goals. Maximum value means minimum vehicle downtime, increased productivity and the best possible ROI.

PARS' programs have grown far beyond the early days of simple point-to-point relocation. Learn more about our full array of services – driveaway, carrier transport, licensing and titling, maintenance, vehicle storage, and a full range of fleet services, all managed by transportation and logistics professionals.

Then Compare...

Compare us to any transport provider and see what our customers already know: PARS people, technology, and comprehensive services are unsurpassed.
